**Sponsor:** The Japanese Peptide Society

**Co-sponsors:** The Pharmaceutical Society of Japan

The Chemical Society of Japan

Japanese Society for Chemical Biology

**Chairs:** Hirokazu Tamamura & Yoshio Hayashi

**13 : 00** Opening Remarks: Yoshio Hayashi (Tokyo University of Pharmacy and Life Sciences)

**13 : 10** Hanmei Xu (China Pharmaceutical University, China)

Chair: Gosuke Hayashi

Combination Therapy of PEG-HM-3 Peptide and Methotrexate Retards Adjuvant-induced Arthritis

**13 : 50** Annette G. Beck-Sickinger (University Leipzig, Germany)

Chair: Youhei Sohma

Targeting of G Protein Coupled Peptide Receptors - State of the Art and Innovative Applications

**14 : 30 Shohei Koide (New York University School of Medicine, USA)**  
Chair: Takaki Koide

Controlling Cell Signaling with Monobodies

**15 : 10 Break**

**15 : 30 Shaomeng Wang (University of Michigan, USA )**  
Chair: Yuko Otani

Design of Peptidomimetics to Target Protein-Protein Interactions

**16 : 10 Ya-Qiu Long (College of Pharmaceutical Sciences, Soochow University, China)**

Chair: Motoyoshi Nomizu

EPO Helix B Domain Derived Cyclic Peptides Ameliorating Renal Ischemia  
Reperfusion Injury and Its Structural Optimization

**16 : 50 Shibo Jiang (Fudan University, China)**  
Chair: Yosuke Demizu

Development of Viral Fusion/Entry Inhibitors

**17 : 30 Hirokazu Tamamura (Tokyo Medical and Dental University)**

Peptide Drug Discovery: Closing Remarks

**18 : 30 Mixer**

※No registration nor registration fee are required  
for attending the seminar.
